As a Computer Science student, I have a strong foundation in programming and web development, adept in Python, C++, and JavaScript. My coursework equipped me with skills in building responsive web applications using HTML5, CSS3, and JavaScript frameworks. I have honed my understanding of data structures, algorithms, and database management through hands-on projects.

I thrive in collaborative environments, contributing to team-based projects that require problem-solving and effective communication. My ability to adapt quickly to new technologies ensures I stay ahead in a fast-paced field. Beyond technical skills, I bring a passion for innovation and continuous learning through extracurricular activities.

I am eager to leverage my skills and academic achievements in software development teams, applying my knowledge in real-world settings. My goal is to grow professionally, making a positive impact through technology and advancing innovative projects.

## INTERNSHIPS

**SHIVA NCR CONSULTANTS** | IT Product & Services                     **15 Dec 2023 - 15 Jan 2024**
UI Designer
As a UI Design Intern at Shiva NCR Consultants, I gained hands-on experience in creating user-friendly interfaces for web and mobile applications. I collaborated with senior designers to translate project requirements into wireframes, prototypes, and final designs using Figma, Sketch, and Adobe XD. I developed interactive prototypes and detailed wireframes for client presentations and internal reviews. Regular design reviews allowed me to present my work and incorporate feedback, ensuring high-quality designs.

This internship provided a valuable platform to apply theoretical knowledge in a practical setting, develop a strong portfolio, and enhance my teamwork and communication skills. It was an instrumental experience in shaping my career path in UI design.
